

### Project Title

- Stroke

### Team Members

- Madeline Proctor
- Santiago Navarro
- Ciara Washington

### Project Description/Outline

- Predict likelihood of having a stroke based on their life circumstances (e.g., urban vs. rural location, history of smoking, type of job, pre-existing health conditions)

### Datasets to be used

- <https://www.kaggle.com/datasets/fedesoriano/stroke-prediction-dataset>

### Tools to use:(1 ML and 2 others)

- SciKit Learn
- Pandas or Python
- Tableau
